### Why Us...

#### Expertise:

Our experts deliver exceptional applications. Our associates and consultants have a wide range of skill sets and an amazing depth of experience. Satisfied clients are a testimonial to our proven expertise.

#### Performance:

We deliver on time and within budgets. Our methodology allows us to focus on the client's needs at all times. This helps us deliver satisfaction and perfection in all our projects.

#### Experience:

We have more than a decade of experience in our skill sets. This has translated into pleased customers returning to us for all their business needs.

We hope to add you to our list of satisfied customers! Just give us a call for...

- ☆ cost effective solutions
- ☆ improving business processes
- ☆ integration of disparate systems
- ☆ lower development costs
- ☆ managing networks

### client talk...

"All of the Datalink Systems consultants we have worked with, are highly professional, extremely responsive, and have valuable experience and insight that has helped us improve our business. I would unequivocally use Datalink Systems for future projects. I recommend them highly."

Michael S. Sherman, PhD., CAE  
President,  
Association Research Inc.

### client talk...

"Datalink Systems Inc. has provided Mobil Oil Corporation's Marine Sales and Services Division with totally integrated software solutions that we credit as one of the primary reasons for our sharp rise in market share over the past three years."

Loren Lewis Fetzer  
Senior Business Advisor  
Mobil Marine Sales and Services
